MISCELLANEOUS DEPARTMENTS

OFFICE OF THE INSPECTOR-GENERAL OF POLICE IN MYSORE, BANGALORE.

Notice No. T. C. 295—37-38, dated 19th November 1937.

The public are hereby informed that an Avery's Weigh-bridge to weigh motor vehicles is erected in the Office of the Inspector-General of Police in Mysore, Cenotaph Road, Bangalore City, and that motor vehicles brought for weighment will be weighed on payment of a fee of Rs. 10 for each weighment. A certificate of weighment will invariably be issued with each weighment so made.

F. A. HAMILTON,
Inspector-General of Police.

BUREAU OF SANITARY ENGINEERING, BANGALORE.

Notice dated 9th February 1939.

The attention of the public is invited to the Notification calling for tenders for the "labour portion of the work for providing Sanitary fittings to the hotel at Krishnarājasāgar" pubished on pages 319-321, Part VI of the *Mysore Gazette*, dated 16th February 1939. The last date for receipt of tenders is 3rd March 1939.

Notice dated 11th February 1939.

The attention of the public is invited to the notification calling for tenders for the work of constructing drains in Chennarayapatna Town, published on pages 321-322, Part VI of the *Mysore Gazette*, dated 16th February 1939.

The last date for the receipt of tenders is 3rd March 1939.

Notice dated 11th February 1939.

The attention of the public is invited to the Notification calling for tenders for the work of constructing drains in Hassan Town published on pages 322-323, Part VI of the *Mysore Gazette*, dated 16th February 1939.

The last date for the receipt of tender is 3rd March 1939.

Notification dated 22nd February 1939.

Notice is hereby given that sealed tenders will be received at the Office of the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, up to 1 P.M. on 17th March 1939, for sinking a curb well of 16′ diameter and 30 feet depth for the Water Supply to Sagar Town. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of June 1939.

2. The plans, detailed estimate and conditions may be seen at the Sanitary Engineer's Office between the hours of 11 A.M. and 5 P.M. on all office days.

3. Tenders should be submitted on printed forms which may be obtained from the Sanitary Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of Rs. 400 in cash (no cheques will be accepted) as earnest money, and be superscribed "Tender for sinking a curb well of 16′ diameter and 30 feet depth for the Water Supply to Sagar Town," in default of which the tenders will be rejected.

5. The final acceptance of the tender will rest with the Sanitary Engineer who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond, in default of which his tender will be considered cancelled and his earnest money will be forfeited.

7. The name of the successful competitor, whose tender has been accepted, will be posted on the Notice Board in the Sanitary Engineer's Office in due course. No enquiry regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

9. Charges on account of scaffolding materials, implements for setting out, barricading, clearing site, supply of water, etc., that may be found necessary during execution will not be paid for separately, but should be borne by the contractor.

10. Rates for non-tendered and non-estimated items shall be as per schedule rates of the department or those fixed by the Sanitary Engineer after working out data with not more than 10 per cent for contractor's profit.

11. In all matters not specifically provided for and in all matters of dispute about rates, quantities, measurements, quality of works, etc., and in all disputes of any kind, the decision of the Sanitary Engineer will be final and legally binding.

Estimate of the approximate quantities for the work of sinking a curb well of 16 feet diameter and 30 feet depth for the Water Supply to Sagar Town.

No.	Details of work	Unit	Quantity
1	Providing a reinforced cement concrete curb ring 16′ inner diameter $2\frac{1}{3}$ feet height and 2 feet width as per design with cement concrete in the proportion of 1 : $2\frac{1}{2}$: 5 and $\frac{7}{8}$″ round iron bars for reinforcement in rings and $\frac{3}{8}$″ dia. bars for binding the rings at 9 inches apart from centre to centre and fixing in position and casting, etc., complete	C.ft.	223
2	Earthwork excavation for sinking the curb uniformly, lifting the earth, sand, water, etc.		
	(*a*) 1st fathom in sand and ordinary soil mixed with sand	C.yd.	101
	(*b*) 2nd fathom sand loose earth and pebbles, etc...	,,	101
	(*c*) 3rd fathom in all soils pebbles and boulders, etc.	,,	101
	(*d*) 4th fathom do do do	,,	101
	(*e*) 5th fathom do do do	,,	101
3	Steeving with dry laterite bricks (2′×1′×$\frac{3}{4}$′ in size) from bottom up to 20′ height	C.ft.	2,263
	Do above 20′ height up to ground level with $1\frac{1}{2}$′×1′×$\frac{3}{4}$′ size bricks	,,	872
4	Constructing parapet wall with laterite bricks ($1\frac{1}{2}$′×1′×$\frac{3}{4}$′) in chunam mortar above ground level	C.ft.	436
5	Pointing with cement mortar in the proportion of 1 : 3 the parapet wall both inside and outside and inside the well up to 10′ depth from ground level	Sqr.	12.02
6	Supplying and fixing 10″×5″ rolled steel girders over the well including painting, etc., complete	Cwt.	15.55
7	Supplying and fixing 2″ thick precast reinforced cement concrete slabs with the cement concrete in the proportion of 1 : $2\frac{1}{2}$: 5 and with $\frac{3}{8}$″ dia. iron bars to the required size for covering the well	S.ft.	314
8	Plastering with cement mortar in the proportion of 1 : 3 to an average thickness 1″ sloping from centre to the end	Sqr.	3.14

N. KRISHNIENGAR,
Sanitary Engineer.

OFFICE OF THE LIVE-STOCK EXPERT IN MYSORE, BANGALORE.

Notification dated 11th February 1939.

It is hereby notified for the information of the public that 10 bull calves, 5 heifer calves (Amrith Mahal, Hallikar and foreign cross breds) and three Amrith Mahal Bullocks will be sold by Public Auction by the Live-Stock Expert at the Hebbal Farm on the 20th March 1939 at 8-30 A.M.

The sale shall be knocked down in favour of the person who offers the highest bid, provided the Live-Stock Expert does not consider it unreasonably low. As soon as the sale is concluded, the purchaser shall pay the full amount and take delivery of the animals.

A. A. MONTEIRO, LIEUT.
Live-Stock Expert.

OFFICE OF THE AGRICULTURAL ENGINEER, BANGALORE.
